LOGNOTE -- Chief, Operations Group, 24 October 1986

1. [ ] Following notes are from D/FBIS' Staff Meeting, attended by C/Ops and DC/Ops: [ ] 25X1  
25X1
  - D/OSO is doing well following his double bypass operation. [ ] 25X1
  - The Agency has not yet gotten all of the details of its FY-87 budget, but it looks as though we were cut less severely than originally feared. The modernization program bore the brunt of the FY-87 cuts, and any refunds will go into it. [ ] 25X1
  - Secretary Shultz visited NPIC recently. All of the demonstrations worked, but he got stuck in a balky elevator when he tried to leave. [ ] 25X1
  - Some DS&T offices have sponsored secretarial off-site meetings recently. FBIS will look into the benefits of such a session. [ ] 25X1
  - [ ] was wiped out, but fortunately all personnel escaped in time. One employee was injured. [ ] 25X1  
25X1
  - The CFC kickoff is upon us. All employees are urged to read the information on CFC programs and get their cards in on time. Last year, FBIS was by far the leading contributor in the DS&T, going 150 percent over goal. [ ] 25X1
  - [ ] 25X1
  - [ ] 25X1
  - Our search for Xyvision operators took a turn for the better on Friday, when P&PD eased the requirements for entry into its apprentice program for printers, which will supply our Xyvision staff. [ ] 25X1
  - O/L has finally signed off on rental rates for the new FBIS housing in Key West. We think the rates are reasonable, though higher than we would have liked. [ ] 25X1
  - [ ] is the new chief of the Admin Staff Foreign National Unit. [ ] 25X1  
25X1

[ ] 25X1

**SECRET**

- [ ] reminded all those who handle applicant files that any  
remarks made on the buckslips become part of the permanent record.  
Any comments should be brief, businesslike, and germane. [ ]
